1. HENRY A. NAGAMORI, of LOMA  
(Name of Appropriator) (Address) (Town)

County of CHOUTEAU State of MONTANA  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

SW 1/4 NE 1/4 Sec. 35 T-25 R-9

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Water cattle in summer plus garden use.  
3. Date or approximate date of earliest beneficial use; and how continuous the use has been June 1950. In use every year.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) 1/2 gal. per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof Not applicable.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Windmill. Also centrifugal pump on water truck. Located 1/2 mile east of farm building.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Start Sept. 1949. Finished in the fall. Windmill set in 1955.

8. The depth of water table 20 feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Aug. well with 3 foot inside diameter concrete casing. 2 1/2 feet deep.

10. The estimated amount of groundwater withdrawn each year 15,000 gal.

11. The log of formations encountered in the drilling of each well if available Sand full depth.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. None.

Signature of Owner

Henry A. Nagamori

Date Dec 26, 1963

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

A black and white photograph showing a close-up of a textured surface. The surface is covered with a dense, repeating pattern of small, dark, rectangular or square elements, possibly raised or recessed, creating a grid-like appearance. The overall texture is grainy and uneven, with some areas appearing slightly more worn or different in tone than others. The lighting is somewhat uneven, with brighter areas in the center and darker areas towards the edges.

STATE ENGINEER

1. The Full Gospel Church of Loma, Montana,

Loma,

(Name of Appropriator)

(Address)

(Town)

County of Chouteau

State of Montana.

have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1/4 Sec 7 T25N R10E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based Household use and irrigation of lawn and trees.

3. Date or approximate date of earliest beneficial use and how continuous the use has been July 15, 1943. Beneficial use has been continuous ever since.

4. The amount of groundwater claimed (in miner's inches or gallons per minute) Fifteen (15) Gallons per minute.

5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof Lots Twenty-two (22), Twenty-three (23), and Twenty-four (24), Block Four (4) of the Townsite of Loma, Montana.

6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Jacuzzi Shallow Well Electrical Pump, One half Horsepower Electrical Motor Driven.

7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater Driven well. Commenced driving on July 12, 1943 and completed driving well on July 15, 1943.

8. The depth of water table Twenty-five (25) feet.

9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater At present we have only the one well described above and it is located on Lot 23, Lot twenty-three of Block Four (4) of the Townsite of Loma, Montana.

10. The estimated amount of groundwater withdrawn each year 1,296,000 Gallons per year.

11. The log of formations encountered in the drilling of each well if available Well was driven, not drilled, therefore all that is known is that we struck sand at twelve feet and had about three feet of sand then the rest of the depth was composed of gravel.

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record Book of Deeds No. 45, page 277 in Chouteau County Court House, Fort Benton, Montana.

DECLARATION OF VESTED GROUNDWATER RIGHTS

(Under Chapter 237, Montana Session Laws, 1961)

A Mrs. Dora Haasei, of L. O. M. A.  
(Name of Appropriator) (Address) (Town)  
County of CHouteau State of MONTANA  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

1/4 Sec. 7 T. 25 N. R. 10 E.

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

Loma Town site

2. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater land pump in 1930

3. The depth of water table 20 ft

4. If it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater one land pump 23 ft

10. The estimated amount of groundwater withdrawn each year 30000

11. The log of formations encountered in the drilling of each well if available  
Eight feet of fine gravel 16 feet sand & gravel

12. Such other information of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record. none

Signature of Owner Mrs. Dora Haasei  
Date \_\_\_\_\_

Three copies to be filed by the owner with the County Clerk and Recorder of the county in which the well is located.

Please answer all questions. If not applicable, so state, otherwise the form will be returned.

Original to the County Clerk and Recorder; duplicate to the State Engineer; Triplicate to the School of Mines and Quadruplicate for the Appropriator.

STATE ENGINEER

1. HENRY O. POPE ETUX, of Box 46 Loma  
(Name of Appropriator) (Address) (Town)

County of Chouteau State of Montana 59460  
have appropriated groundwater according to the Montana laws in effect prior to January 1, 1962, as follows:

NW 1/4 SW 1/4 Sec. 7 T. 25 R. 10 E

Indicate point of appropriation and place of use, if possible. Each small square represents 10 acres.

2. The beneficial use on which the claim is based irrigation of lawn and garden, operation of General merchandise retail business.
3. Date or approximate date of earliest beneficial use; and how continuous the use has been July 1944 use has been continuous.
4. The amount of groundwater claimed (in miner's inches or gallons per minute) 20 gallons per minute
5. If used for irrigation, give the acreage and description of the lands to which water has been applied and name of the owner thereof Lots 4 & 5, Block 3 Loma, Montana  
Owner ~~Henry O. Pope~~
6. The means of withdrawing such water from the ground and the location of each well or other means of withdrawal Electric pumps into a pressure system. Two wells each located in middle of Lot 6, Block 3, Loma
7. The date of commencement and completion of the construction of the well, wells, or other works for withdrawal of groundwater First well was a driven sand point, July 1944  
Second well a driven sand point April 1956
8. The depth of water table 55 feet below surface
9. So far as it may be available, the type, size and depth of each well or the general specifications of any other works for the withdrawal of groundwater Each well a sand point driven to 24 feet below surface. Each point had to be driven about 20' deeper after Tiber dam was completed on the Marias river, due to drop in water table.  
Use 1-500 gph pump and 1-600 gph pump for withdrawal of water.
10. The estimated amount of groundwater withdrawn each year 900,000 gallons
11. The log of formations encountered in the drilling of each well if available None available
12. Such other information, of a similar nature as may be useful in carrying out the policy of this act, including reference to book and page of any county record.

The word "mean" is used in many different ways. It can mean to be unkind or selfish, or it can mean to be average. In this case, the word "mean" is used to mean "average". The sentence says that the mean of a set of numbers is the number that is in the middle when the numbers are arranged in order.

[The page contains several lines of extremely faint, illegible text, likely bleed-through from the reverse side of the document.]
